

## CAPS Reimbursement Rates

CAPS has established a state maximum rate to reimburse providers based upon the location where care is provided, the type of child care provider selected, the age of the child, and the type of care being provided. When multiple types of care are provided for the same child within the same service week (i.e., full time, part time, before and/or after), the maximum rate CAPS will reimburse the provider is the state maximum rate for full time care.

**On May 17, 2021, DECAL began a new CAPS initiative, Awarding Child Care Education Scholarship Supplements (ACCESS). This initiative is funded by supplemental monies made available to Georgia through the Coronavirus Response and Relief Supplemental Appropriations Act (CRRSA). ACCESS is intended to mitigate the financial impact of the COVID-19 pandemic on Georgia’s child care industry and to help eligible Georgia families (also negatively impacted by the pandemic) pay for child care. The purpose of ACCESS is to temporarily support CAPS families by paying 100% of their child care tuition costs. Through ACCESS, DECAL will pay the provider their full published rate for the type of care provided, including the family fee. This means that CAPS families will not pay their child care provider any tuition related fees or co-payments for child care. ACCESS initiative payments supplement the published CAPS reimbursement rates.**
